У комплексному міжгалузевому дослідженні на підставі досягнень кримінально-правової, кримінально-процесуальної, кримінологічної та криміналістичної наук, а також науки кримінально-виконавчого права висвітлюється державна політика у сфері запобігання злочинності і боротьби з нею. Авторами проаналізовано питання сучасного законодавства, судової практики і відповідної галузі права, розглянуто найбільш актуальні проблеми запобігання злочинності, запропоновано шляхи їх вирішення.

Розраховано на наукових співробітників, викладачів, аспірантів, студентів юридичних вищих навчальних закладів, практичних працівників і широке коло читачів, які цікавляться станом та розвитком державної політики у сфері боротьби зі злочинністю.

This volume is devoted to the intersectoral study of criminal, criminal procedure, criminological, and forensic sciences, together with penal law and public policy in the prevention and combating crime. The authors analyze modern legislation, judicial practice, and appropriate doctrinal writings, considering the most urgent problems of crime prevention and proposed solutions.

Intended for researchers, lecturers, graduate students, students of institutions of higher education, legal practitioners, and wide range of readers interested in the development of State policy in the field of combating crime.
